THE BOSTON MARKET.

Boston. March 6.—The mining shares continued active, with the tone showing strength throughout. Alaska Gold, American Zinc, Butte and Superior and North Butte were the lead.

The copper market assumed a better aspect as the week was brought to a close, owing to indications that big businness would soon be placed for additional perior and North Butte were the lead.

The New York Federal Reserve Bank course employment of children under rates were 4 per cent, for thirty to 14 years of age. In 1914 the number of violations specifically reported by inspectors was less than 30c. This figure is the market discounts, prime acceptance.

SOME CANNERS DEFY B. R. T. OBEYS, BUT LABOR LAWS STILL FIGHTS CAR ORDER

2,912 Commissioner Lynch Says Con- Health Board's Power to Issue ple in New York, the avarice of real Transit Regulations Is Challenged.

TENT WORKERS UNDER 10 HEARING IS GRANTED the case up to last week, when Judge lifts the water from well or distern

ALBANY, March 6 .- "While it is true President T. S. Williams of the Brook- if builders could secure a site. that there was considerable illegal employment of children in sheds or tents by a number of canners, nevertheless violation of law was far from general," says Commissioner of Labor Lyne his is averue the Line the meaning of the more cars on the Graham Commissioner of Labor Lyne his is averue the Line the meaning of the more cars on the Graham Commissioner of Labor Lyne his his averue the Line the meaning of the more cars on the Graham Commissioner of Labor Lyne his his averue the Line the meaning of the same of the convenience of riding around the same."

ALBANY, March 5.—"While it is true the air above that in 1751 Mr. Delances who that in 1751 Mr. Delances was given "leave to lay out to supply the convenience of riding around the same."

The smallest and simplest out it of this sort, worked by hand power, costs about \$45. It is only fifteen or twenty Commissioner of Labor Lynch in his avenue line. In the meantime Mr. Will- Mrs. Robert Murray was a very annual report to the Legislature on the lams said in his letter to the Commis- patriotic woman. Like many women longer. An outfit suitable for a small investigation of the cannery industry sioner the order will be obeyed fully. of her times she never let an opport family and operated by a gasoline

clination to evade the law at will. Con-tinuing he says:

"The fact that so many canners con-ducted their business without violation of law argues most strongly that the law as it now stands is not an un-reasonable restriction upon the indus-tries and makes it clear that violations of law are chiefly the result of the in-dividual canner's attitude toward it and not of the necessary exigencies of his business."

Board's Power Questioned.

In his communication President Williams says that he has been advised by counsel that transit regulation is best counsel that transit regulation is best health. "Pending an opportunity for a hearing, however," adds Mr. Williams, "and in order to avoid the threatened 'arrest and penalties,' we have given instructions that the terms of the order be strictly complied with."

"The health two sons, Lindley and John. The former was a famous grammarian and the latter followed his father's foot to the gallon. As a matter of fact a good part of medern sanitary science was practised by ancient Egyptians and our colonial stress. It has often been said that had the action been started as soon as it was known an office building was to be rected the courts would have decided in favor of Murray Hill. But since the structure was practically complete when the action was brought it was deemed a hardship for the build-representative of fact a good part of medern sanitary science was practised by ancient tary science was practised by a In his report the Commissioner says the most striking development "found under the amended law was the erection in some cases, notably in two large plants, of tents in addition to the usual shed, to which children were sent to snip beans on the theory that a tent would not be included in the definition of a factory."

The health standard laid down by the deministion of a factory."

The health standard laid down by the deministion of a factory. "One inspector discovered 311 children, all under 16, and none of whom had employment certificates under a tent at one cannery." Of these, says the report, "180 were under 14 years of age and a few were at work who were under 10 years of age. Several under 10 years of age were not at work, but were simply there with relatives the several expendituation in this cannery," Commissioner indicated that the several expendituation in this cannery," Commissioner indicated that child labor is largely, if not wholly, response to complaints that during the morning "the company runs three sorted to because their labor is essential to get the work done at the pricespaid. Thus noting the fact that childiers were stringing about one-third of all the beans, the inspector says: "I think if the company raised the price of stringing on all beans there would be no need of employing children were stringing and all beans there will be not the company raised the price of stringing on all beans there would be no need of employing children were stringing and the price of the company raised the price of stringing on all beans there would be no need of employing children were stringing to a several the price of the company raised the price of the company raised the price of stringing on all beans there would be no need of employing children were stringing to the department is hashed.
